Varanasi, India | +91 9129423643 | [akashcric17@gmail.com](mailto:akashcric17@gmail.com) | LinkedIn: <http://www.linkedin.com/in/akashmaurya24> | Portfolio: <https://akash-maurya-portfolio.vercel.app/>

## SUMMARY

Motivated Data Analyst with hands-on experience in Excel, SQL, and Tableau. Skilled in data cleaning, exploratory data analysis, and dashboard creation. Strong ability to translate data into actionable business insights, with experience analyzing sales trends, customer behavior, and performance metrics.

## SKILLS

### Technical Skills:

- Excel (Pivot Tables, Charts, Slicers, Macros)
- SQL (Joins, Aggregations, Subqueries)
- Tableau (Dashboard Development, Data Visualization)

### Core Skills:

- Data Cleaning
- Exploratory Data Analysis (EDA)
- Dashboard Development
- Business Intelligence
- Reporting & Insights

## PROJECTS

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |          |
